SIMPLIFIED SCORING INSTRUCTIONS

PLAYER'S FIELDING PERFORMANCE

Inning by inning the scorekeeper will credit the positions shown 1 thru 10 with put-out, assist or errors, noting any fielding changes by filling in the double line separating each inning.

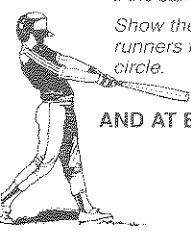

IN THE FIELD

④ The center portion of the square is used by the scorer to show pictorially the type of hit ball, where it was hit, and if it resulted in a put-out, a hit, or a fielding error. The diamond in the center is used by the scorer to follow the progress of the batter/baserunner.

② The relief pitchers uniform number is added next to the starting pitcher's number when a pitching change is made in the same inning and a heavy dark line will show the last batter the starting pitcher pitched to.

③ The ball and strike count on the batter is recorded by the scorer. After a pitch is made and the umpire calls the pitch a ball or strike, the scorer places a line through the appropriate box. EXAMPLE: The count on the batter is 1 ball and 2 strikes.
